Class:TYIT	Batch: B1
Date of Assignment: 26/09/2026	Date/Time of Submission: 26/09/2026

Practical 12-A: Install and Configure the Jira Mobile App

Objective

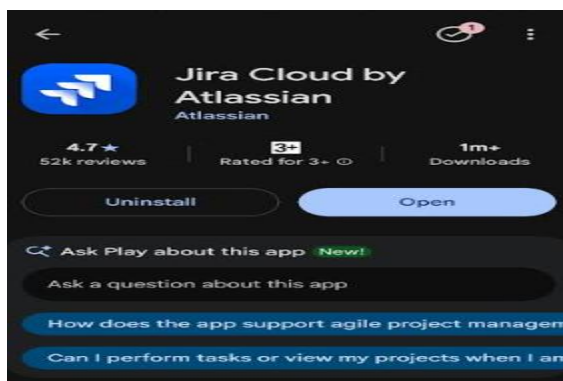

To install and configure the **Jira Mobile App** and set up notifications and permissions.

Steps

1. Open the **App Store** on your mobile device.
 - For Android: Open **Google Play Store**.
 - For iPhone/iPad: Open **Apple App Store**.
2. Search for:

Jira Cloud by Atlassian

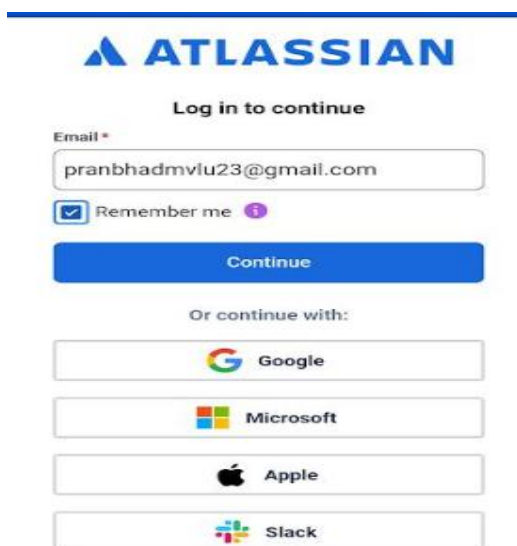

3. Select the **Jira Cloud by Atlassian** app.
4. Click **Install**.

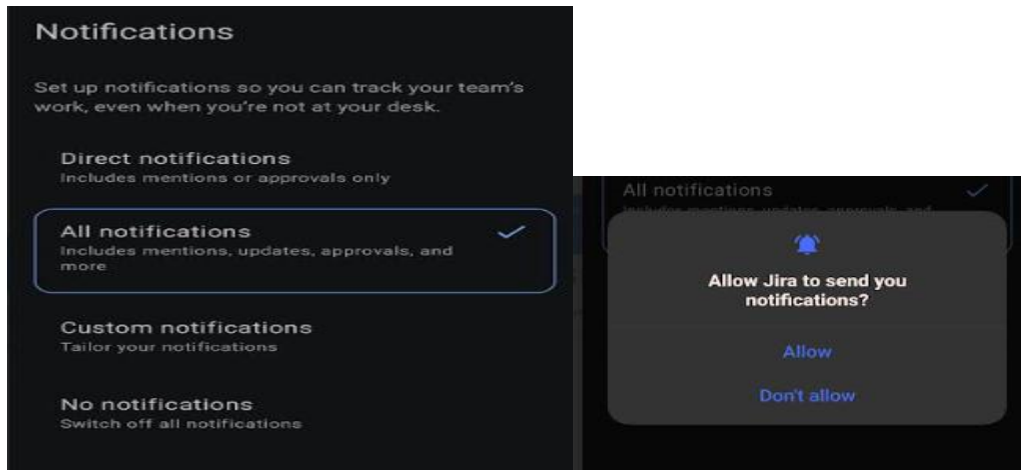

5. Wait until the app is completely installed.
6. Tap the **Jira icon** to open the app.
7. Select **Log In** or **Sign Up**.

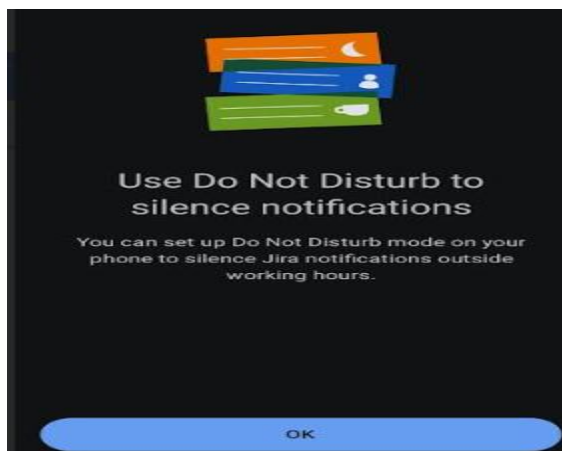

8. Log in using your **registered Gmail account** or correct Jira/Atlassian credentials.
9. After logging in, click **Set Up Jira**.

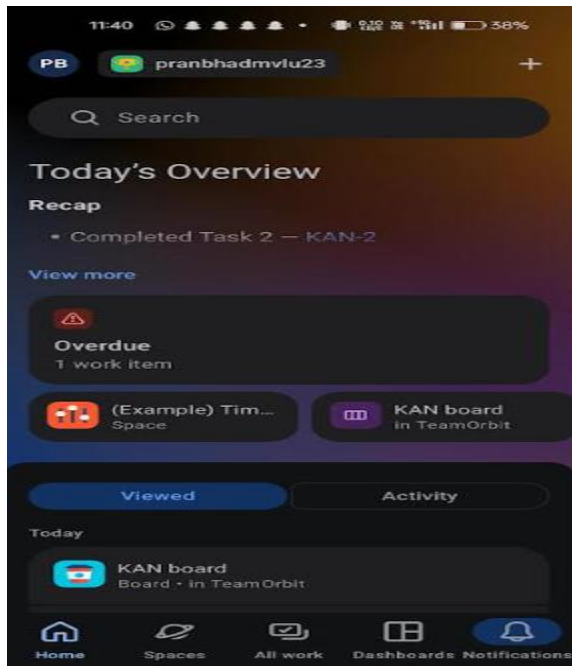

10. The Jira setup screen will be displayed.
11. Click **Next**.
12. On the **Notifications** screen, select:
All notifications.
13. Click **Next**.
14. When Jira asks for permission to send notifications, select:
Allow

15. Click **Update app permissions**.
16. Select **Allow All Permissions**.
17. Click **OK**.
18. On the **Do Not Disturb** screen, click **OK**.

19. Continue through the setup screens until the Jira dashboard is displayed.
20. Verify that the **Jira dashboard/home screen** is displayed successfully.

Result

The Jira Mobile App was successfully installed, configured, and notifications and required permissions were enabled.

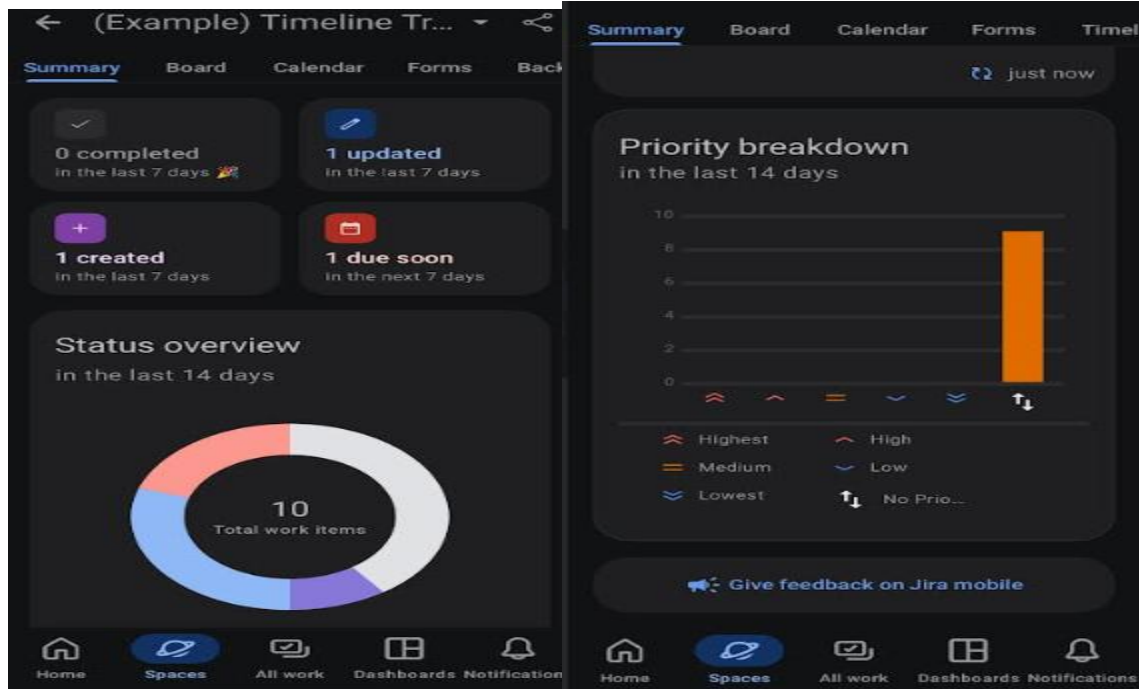

Practical 12-B: View and Update Issues from Mobile

Objective

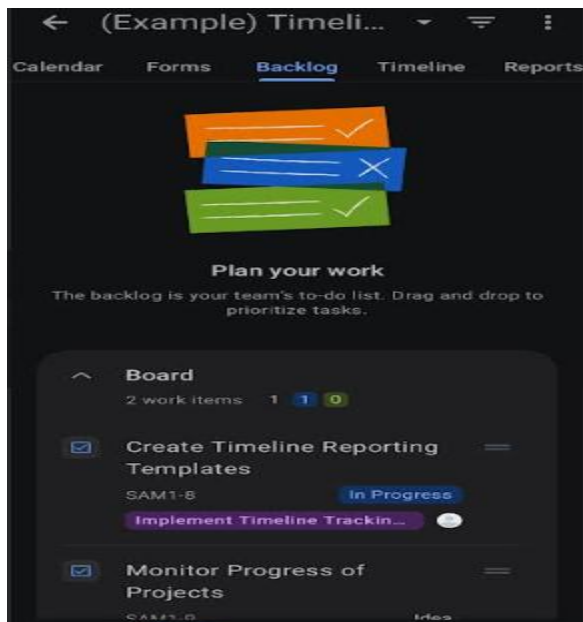

To view and update Jira issues from the mobile app, manage sprint/work items, track progress, receive notifications, and view real-time updates.

Steps

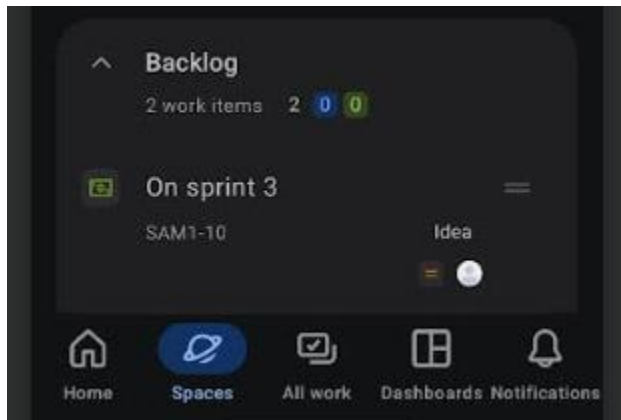

1. Open the **Jira Mobile App**.
2. Go to **Spaces**.
3. Select the required space.

4. The **Summary** page of the selected space will be displayed.
5. To create a sprint, select **PROJECT**
6. Open the **Backlog** section.

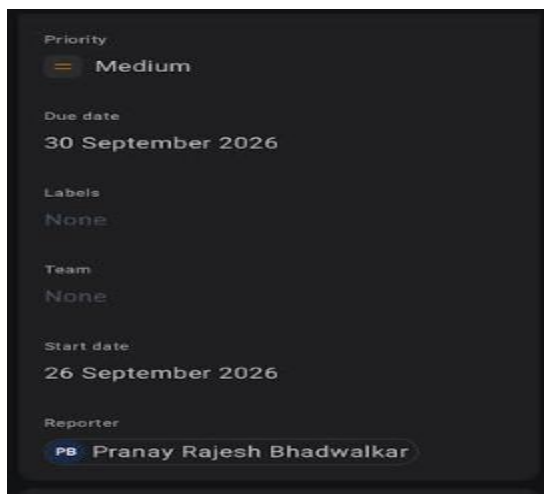

7. Click **Create** to create a new work item.
8. Create an issue
9. Enter the required issue details.
10. Click **Done**.

11. The created work item will appear in the sprint/backlog.

12. Click **Start Sprint**.

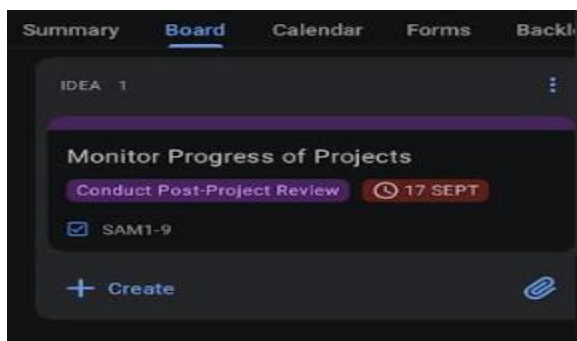

13. Set the **End Date** for the sprint.

14. Click **Start Sprint**.

15. The work item will appear on the **Board**.

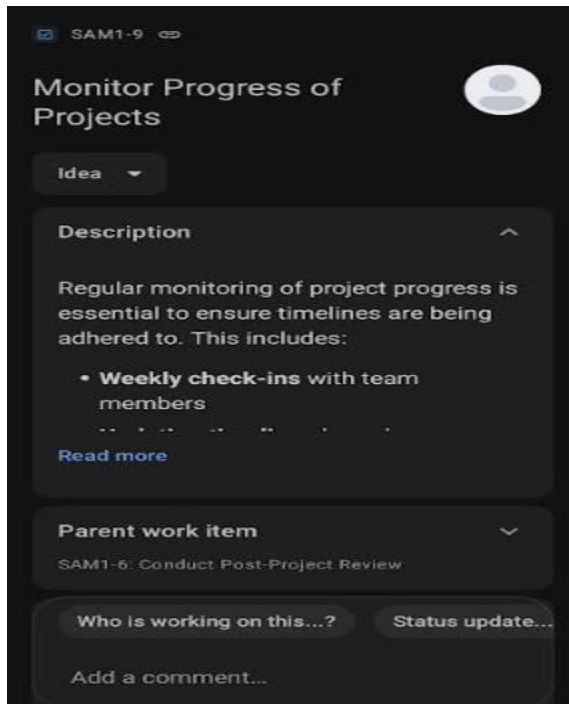

16. Open the **Board** to view the work item.

17. Track the progress of the work item on the board.

18. Update the work item as required by changing its status.

19. View the updated status and progress of the work item.

20. Open the **Summary** section.

21. Verify the displayed work-item information, including completed, updated, created and due-soon items.
